Summary & Technical skills

- Currently a student seeking internship for the position of Java Developer. Responsible, communicative and friendly person who is always looking for bigger challenges.
- Most familiar with (in order): Java, HTML, CSS, JavaScript, PHP, SQL , C++, Python and Adobe Photoshop. I have several smaller projects that were done after completing the first courses in CSS, Bootstrap, Wordpress, Javascript, as well as the project I am currently working on which is a bit more complicated with use of MySQL, PHP, AJAX communication, jQuery, etc.

Education

The School of Electrical and Computer Engineering of Applied Studies, Belgrade
Bachelor's of Applied Science - BASc, Information Technology and Systems
Oct 2019 - Present

- I have successfully completed the first five out of six semesters.
- Due to good organization I'm managing to maintain an average grade of 10.0 out of 10.0 in my studies.
- I have influenced many colleagues to be more productive by helping them for several hundread hours of my private time.

Electrical Engineering High School "Nikola Tesla", Belgrade
Multimedia Technician
Sep 2013 - Jun 2017

Experience

Warehouse worker
MercataVT
Jul 2021 - Oct 2021 (4 months)

Operator of production line materials
Robert Bosch
Jan 2018 - Oct 2019 (1 year 10 months)

- I worked with materials which includes their ordering and organization and all this with constant communication with other team members for the most efficient results.
- Due to very good organization with accumulated knowledge I was able to do things in advance which led me to recognize errors that would in normal situations led to production downtime which represent significant losses.

Other

Driver's licence
B category acquired in year 2020
